**15 April from 11.45-13.15 PETROVARADIN FORTRESS TOUR**

In the afternoon and evening of the first day, **14 April** available are the following tours:

### 1. FORGOTTEN LADIES OF NOVI SAD

Who created warm homes for successful merchants, politicians and poets of Novi Sad? For whom were everybody looking around on the promenade? Who was breaking the hearts of men with her verses? Mothers, beauties, and above else they were educated, ladies, spokeswomen, enlightened benefactresses and much more were ladies of Novi Sad.

These ladies left great contribution to cultural ambience of Novi Sad. History is not just found in books, but also in the city itself. Novi Sad will tell us its tale about its prominent ladies. Let us find the houses in which they lived and worked. Witness places of history. In our city there are still windows from which looked and door which they used. Let us stop in front of those places and remember those remarkable ladies. Unfortunately records tell us little about them, even more forgotten. We shall remind ourselves of unfairly forgotten ladies of Novi Sad.

At the end of tour join us for couple more stories, which you are going to enjoy while tasting Kugloff (famous cake) and Bermet (local famous wine).

**Forgotten ladies of Novi Sad**, the most famous among them is Mileva Maric Einstein (Einstens' first wife), the mathematician. This tour will be organized at 5.00 PM for an hour if at least 10 people are signed in for it. Cost of the tour **10 Euros per person**. Wine degustation and eating are not included!

### 2. FORGOTTEN TALES OF TAVERNS OF NOVI SAD

During sightseeing tours of cities we usually learn about its history and culture. When we talk about times long past and institutions which marked it, we would talk about Serbian national theater, many churches, Matica Srpska and many other things... but it would be unfair to leave out the taverns, which

were places most social life happend in Novi Sad. In those taverns history of Novi Sad was created, and taverns became part of that history.

In this walk we will find out where were the places with excellent food and drinks. We will mention the people who spent there bohemian days in those taverns. We are going to talk about famous gentleman which were going to those taverns. Taverns of Novi Sad were places of music, dance, theatrical palys and many things more. Tavern is relationship amog the people, longing, remembrance, river of many fond memories.

In this walk we shall see the tavern in which was the famous "professors table", tavern in steaks had to be bigger than the plates on which they were served, tavern in which they were serving Czech beer in XIX century, where people were drinking from cold barrel or if they had a cold they would there glass in bowl of hot watter. We will pass the tavern in which "the lion" used to eat, by a tavern in which artists created art which immortalized them, politicians held speeches...

Today important decisions are made in halls of important palaces or government building and in days passed it happend in taverns. Even if old taverns of Novi Sad are losing their fight with new catering establishments (caffes, discos...), their history and special quality is preserving them from oblivion.

**Forgotten tales of taverns of Novi Sad** is the evening tour from 8.00 PM, if at least 10 people are signed in. Cost of the tour **10 Euros per person**. Beer degustation and eating are not included!
